

PSWGL Pennants' Course Match Play Indexes for 2025 Season

The charts show the matchplay indexes for Collier Park. Work out how many strokes are given or received between the opponents and the holes are in correct order of where these strokes are given or received.

E.g. If a player receives 5 strokes, they are on the first 5 holes listed on the charts below.

To calculate the difference in strokes, subtract exact GA handicaps first, THEN round up or down.

A difference of 0.5 is rounded up.
