

PSWGL Pennants' Course Match Play Indexes for 2026 Season

Work out how many strokes are to be given or received between the two opponents, and the holes are listed in correct order of where these strokes are given or received. E.g. At Hillview, if a player receives 5 strokes, they are on the first 5 holes listed on the charts below. To calculate the difference in strokes, subtract exact GA handicaps first, THEN round up or down. A 0.5 difference is rounded up.
